

Sally Elsayed Abdel Sameaa

Personal information

DOB: 1/06/1985

Gender: Female

Place of birth: Egypt

Title: Associate Professor

Contacts

 01069650000

 Sallyabdelsamie@mans.edu.eg

Experience

- Associate Professor of Oral and Maxillofacial Surgery, Mansoura University (2022- Present).
- Level 1 Clinical Coordinator Mansoura Manchester Dental Program (2020- present).
- Part time Associate Professor of Oral and Maxillofacial Surgery, Horus University (2019- Present).
- Coordinator of Manchester Program in Oral and Maxillofacial Surgery Department, Faculty of Dentistry, Mansoura University (2023).
- Assistant Professor of Oral and Maxillofacial Surgery, Mansoura University (2016-2022).
- Assistant Lecturer of Oral and Maxillofacial Surgery (2012-2016).
- Demonstrator of Oral and Maxillofacial Surgery (2008-2012).

Qualifications

- BDS (2006), Excellent with honors.
- MDS in Oral and Maxillofacial Surgery (2012), Very Good.
- PHD in Oral and Maxillofacial Surgery (2016).

Publications

- **Abdelsameaa SS**, Tawfik MA, Hawas SA, Mourad SI. Bacteriology and antibiotic sensitivities of orofacial odontogenic infection, Egyptian Dental Journal, 2012; 58: 1127- 1135

- Elsheikh HA, **Abdelsameaa SE**, Elbahnasi AA, Abdel-Rahman FH. Comparison between platelet rich fibrin as space filling material versus xenograft and alloplastic bone grafting materials in immediate implant placement: a randomized clinical trial. BMC Oral Health. 2023 Dec 8;23(1):977.

Contribution in Thesis Supervision

- Clinical assessment of intra-articular ozone gas injection versus anterior repositioning splint therapy in treatment of internal derangement of temporomandibular joint.
- Clinical outcomes and stability changes associated with immediately loaded dental implants of two different installation protocols.
- Evaluation of the effect of socket shield technique on the success of immediate dental implant.
- Comparison between osseodensification and osteotome technique in crestal sinus lift operation.
- Immediate dental implant in the upper premolar area with horizontal critical sized gap with and without primary closure.
- Comparison between the effect of hyaluronic acid and injectable platelet rich fibrin on bone healing _experimental study.
- The effect of insertion torque on the clinical and radiographic outcome of single implant.
- Clinical efficacy of injectable platelet rich fibrin in the treatment of TMJ disc displacement with reduction.

- Efficacy of vented bone block fixed with laser sintered implants restoring defects in posterior mandibular zone.
- Osseodensification versus manual ridge expansion for implant placement in posterior knife edge mandibular ridge.
- Socket shield and modified socket shield techniques for implant placement in the esthetic zone.
- Accuracy of cone beam computed tomography in assessment of cystic lesions of the jaw.
- Evaluation of mineralized plasmatic matrix during sinus lift with the simultaneous placement of dental implant.
- Evaluation of the effect of hyaluronic acid versus dexamethasone following impacted mandibular third molar.
- U-shaped splitting technique versus conventional bone grafting technique in maxillary facial undercut for dental implants placement.
- Clinical and radiographic assessment of bond apatite in horizontal bone augmentation around dental implant.
- Comparison between effects of simvastatin and allantoin on bone formation after surgical removal of impacted mandibular third molars (clinical and radiographic study).
- Ethoss versus mineralized plasmatic matrix for maxillary lateral sinus lifting with simultaneous implant placement.
- Minimal invasive crestal sinus technique using autologous fibrin glue versus sticky bone with simultaneous implant insertion: a prospective study.
- Evaluation of the effect of hyaluronic acid versus dexamethasone following impacted mandibular third molar.
- Tooth-shell versus bone shell technique for horizontal maxillary alveolar ridge augmentation.

Certificate of Conferences Attending and Organization

- 1st Alexandria Dental Conference of Oral and Maxillofacial Surgery “ADCOMS 2015”
- 2nd Alexandria Dental Conference of Oral and Maxillofacial Surgery “ADCOMS 2016”
- Cairo Consensus Conference SENAME 13th International Congress (2016)
- The Second Mansoura International Dental Congress (MIDC2) (2016)
- Head of registration committee of 3rd Mansoura international dental congress, Mansoura University Hotel, Mansoura, Egypt (2019)
- The Third Mansoura International Dental Congress (MIDC3) (2019)
- Egyptian Dental Syndicate International Congress (EDSIC) (2021)
- International Conference of The Egyptian Association of Oral & Maxillofacial Surgery (11th EAOMS) (2021)
- Eleventh Dakahlia Dental Congress (DKDC 11) (2021)
- The Fourth Mansoura international dental congress (MIDC4) (2022)
- Egyptian Dental Syndicate International Congress (EDSIC) (2022)

Training Courses and Workshops

- Scientific Based Sinus Elevation Techniques and Grating On Models Resembling Live Actual Sinus Lifts with 6 total credit hours (2013)
- Implants hands on training on a dummy resembling live with total 6 credit hours (2013)
- Comprehensive implantology course with a total of 120 theoretical and practical credit hours (2014)
- An Evening with Tarnow with 8 credit hours (2018)
- Scientific Writing: From Data Collection to Publishing Course with total 18 credit hours (2018)
- The Way from Proper Dental Implant Placement to The Final Prosthetic Driven Restoration with total 30 credit hours (2019)
- Piezoelectric Bone Surgery: Innovative, Less Invasive and Safe New Concepts in Oral Surgery and Implant Dentistry with total 6 credit hours (2019)

Training Courses (FLDP by Mansoura University)

1. Local and international competitive research projects (2012)
2. Research Ethics (2012)
3. Time and Meeting Management (2012)
4. Scientific publication (2012)
5. Organizing Scientific Conferences (2012)
6. Credit Hours (2015)
7. Financial and Legal Aspects of University (2016)
8. Using Technology in Teaching Process (2016)
9. Profession Behavior (2016)
10. Communication skills in different education styles (2016)
11. Effective display (2016)
12. Successful Leadership (2020)
13. Creativity, innovation and entrepreneurship skills (2021)
14. Concepts and nature of disability and the way of different facilities for them, especially in education (2021)
15. Statistical analysis skills (2021)
16. Designing Personal Websites for Teaching Staff (2021)
17. Crisis and Disaster Management (2021)

Areas of expertise

- Oral surgery
- Oral cancer
- Dental implantology
- TMJ disorders
- Guided bone regeneration
- Augmentation surgery
- Laser in dentistry
- Facial trauma

Computer Skills

- Passed all the modules and obtained ICDL certification (International Computer Driving License).

Teaching Skills

- Teaching the pre-clinical and clinical practical sessions of Oral and Maxillofacial Surgery for 3rd and 4th year dental students, Faculty of Dentistry, Mansoura University from the period of 2008 - 2016.
- I have been worked as a Demonstrator in faculty of dentistry Mansoura University(2008-2012)
- Worked as Assistant Lecturer in Mansoura University (2012-2016).
- Worked as an Assistant Professor in Mansoura University (2016- 2022).
- Worked as an Associate Professor in Mansoura University (2022-till now).

Research skills:

- Publish 2 international publication.
- Reviewer of an International Journal (Advances in Biomedical and Health Sciences journal).
- Reviewer of Journal of Stomatology, Oral and Maxillofacial Surgery

Language:

- Arabic: Mother tongue.
- English: Passed the TOEFL iBT test and obtained TOEFL iBT certification with score 83
- French
