

STUDENT GUIDE TO SCHOOL VISIT

Year Two

Mansoura Manchester Dental Program

Faculty of Dentistry

2021/2022

Cours: Prevention into Practices (PIP)

Year: two MMDP

Aim

1. Increase the awareness of the role of dental professionals within the wider health and social care environment
2. Acquire knowledge of collaborative working to improve general and oral health outcomes
3. Appreciation of the role of other health/social care professionals concerning dental health/prevention
4. Awareness of the 'common risk approach' to disease prevention and health improvement
5. Awareness of the value of collaborative working between Dental Care Professionals (DCPs) and other health/social care professionals
6. *Develop and refine communication skills to support behavior change*
7. Understand the social and environmental factors that influence health and how this informs communication between dental professionals, their patients, and the public
8. Develop an insight into the challenges of communicating clear effective messages to individuals with a range of socioeconomic and cultural backgrounds, and varying educational abilities
9. Feel confident interacting with clients and other health workers in a non-dental setting

On completion of this outreach visit you will be familiar with:

- Appropriate preventive interventions and tailored oral health messages for individuals based on an assessment of their needs
- How communication can make the delivery of an oral health message effective or not

Health Improvement Outreach Visits: Partnership working for health improvement

To understand the potential for partnership working to improve oral and general health outcomes using a 'common risk factor' approach, students

will go out with some of the various dental public health supervisors to the schools in Mansoura city.

During the visits, students can perform an oral health education session with primary school children using PPT and audiovisual activities.

Attendance at outreach visits: Important instructions

If needed, some resources should be prepared for your outreach visits, such as leaflets and oral hygiene demonstration models,....

1. Your **student ID badge** is essential. You will not be permitted to go out with the host partners without it.
2. Dress code: smart/casual. **No jeans or trainers.**
3. Remember to **prepare leaflets, information, and demonstration materials** with you for the visit.
4. The Dental Public Health assistant staff will observe your professionalism and communication. Please ensure to **introduce yourselves** and to **say thank you** to the teams who have hosted you.
6. **NO** food/snacks should be given to the children or adults.
7. **NO** intrusive activities i.e. clinical examinations.
8. At the visit use the reflection form (Appendix 1) to structure and record your observations.

Appendix 1: Forms to use at outreach visits

Here are three forms to use during your visit.

1. Reflection form of the students during an outreach visit (appendix 1)

This gives you a structure for your observations but you may want to make rough notes during the visit and expand on these later. Do this soon after the visit so that you have a basis for your presentation back to the group.

2. Reflection form of the schools' administrators during an outreach visit (appendix 2)

This form will be directed to the school's activities coordinators to evaluate the coordination of the school visits

Feedback form for staff to feedback on Dental Students (appendix 3)

You will be given individual feedback from the staff. The assessment form over-leaf is to be completed by your supervisors during the school visit. One form is to be completed for each student.

(Appendix 1)

Reflection form of the students during an outreach visit

	Not achieved	Partially achieved	Achieved
communication with supervisors			
<i>Your supervisors support you</i>			
<i>Your supervisors respect you</i>			
<i>You feel equality and fairness from supervisors</i>			
School environment /staff			
<i>Class capacity is suitable</i>			
<i>School equipment is suitable</i>			
<i>school staff deal with respect</i>			
<i>The school staff was cooperative</i>			
Coordination of the school visits			
<i>You were notified of all details regarding the visit</i>			
<i>The time of the visit was suitable</i>			
<i>The duration was suitable</i>			
<i>The transportation was suitable</i>			
<i>General comments:</i>			
<i>Student name:</i>			
<i>Signature:</i>			
<i>Date:</i>			

(Appendix 2)

Reflection form of the schools' administrators during an outreach visit

	Not achieved	Partially achieved	Achieved
Coordination of the visit			
<i>The coordinators support you with all the details regarding the visit</i>			
<i>the coordinators were cooperative and respectful</i>			
<i>The coordinators were committed to the visit plan</i>			
Students during the visit			
<i>The students were respectful and follow professionalism</i>			
<i>The students follow the instructions</i>			
<i>Committed to the visit plan</i>			
Scientific content and activities			
<i>The content was useful</i>			
<i>The content was simple and suitable for the school's children</i>			
<i>The activities were useful</i>			
<i>The activities were interesting and suitable for the school's children</i>			
<i>General comments:</i>			
<i>name:</i>			
<i>position:</i>			
<i>Signature:</i>			
<i>Date:</i>			

(Appendix 3)

Feedback form for staff on Dental Students

The students were evaluated inside the classes by dental public health assistant staff according to the following checklist:

	Not achieved (0)	Partially achieved (1)	Achieved (2)
General communication			
<i>Interaction with child</i>			
<i>Professionalism</i>			
Simple presentation			
<i>Introduction</i>			
<i>Message clarity</i>			
<i>Avoidance of dental jargon</i>			
<i>Conclusion</i>			
<i>Message suitability</i>			
Activity			
<i>Innovative ideas</i>			
<i>Positive approach</i>			
<i>Interesting</i>			
Overall rating	/20		
<i>General comments:</i>			
<i>Assessor name:</i>			
 <i>Assessor position:</i>			
 <i>Signature:</i>			
 <i>Date:</i>			

رؤية البرنامج

برنامج متميز عالميا ورائد في مجال التعليم الدولي لطب الأسنان.

رسالة البرنامج

إعداد خريج متميز علميا وباحث مواكب لأحدث التقنيات وقادر على
الإسهام في التطور وذلك من خلال نظام الدراسة التكاملية وتهيئة البيئة
التعليمية والبحثية مما يؤدي إلى تقدم مهنة طب الأسنان وخدمة المجتمع
وتنمية البيئة.
